

Recognizing outstanding Flip the Pharmacy pharmacies, pharmacists, and technicians

It was great to see so many Flip the Pharmacy pharmacies, pharmacists, and technicians selected for a variety of national and state awards presented in September and October. Could the Flip the Pharmacy practice transformation initiative have something to do with their nomination and selection? Please congratulate these pharmacies, pharmacists, and technicians — and keep the recognition coming in the months ahead!

CPESN USA is a clinically integrated nationwide organization of pharmacy networks developed to advance community-based pharmacy practice in America. Through clinical integration, pharmacies in CPESN networks can engage with each other to improve the quality of care provided to patients and the value offered to medical-side payers (bypassing PBMs) through enhanced services and lower costs.
