

CPESN pharmacies helping pharmacies through the pandemic

Sharing best practices on COVID response, monoclonal antibodies therapy, and more

CPESN[®] USA pharmacies continue helping other pharmacies through the COVID-19 pandemic. Consider the following:

- **More than 3,500 pharmacies** are participating in CPESN networks.
- **A total of 1,750 pharmacies** are accessing COVID-19 vaccine through CPESN USA and the Federal Retail Pharmacy Partnership program.
- **More than 5 million COVID-19 vaccinations** have been given by CPESN pharmacies participating in the FRPP and at least 10 million COVID-19 vaccinations are estimated to have been given by CPESN pharmacies nationwide.
- **Hundreds of resources and best practices** have been supplied by CPESN pharmacies through www.COVIDBestPractices.com.
- Resources and best practices have been shared on **monoclonal antibody therapy** (at no additional cost).
- Support has been given to pharmacies with **COVID-19 oral antivirals** through the FRPP (also at no additional cost).

COME EXPERIENCE THE CPESN MOVEMENT FOR YOURSELF!

CPESN networks engage plan sponsors to contract for enhanced pharmacy services. These collaborative relationships provide new revenue opportunities for pharmacies and result in improved outcomes and decreased costs to the plan sponsor. Stop putting it off! The future of local pharmacy practice in America starts with CPESN networks. For more information, visit cpesn.com/pharmacies. ■

CPESN USA is a clinically integrated nationwide organization of pharmacy networks developed to advance community-based pharmacy practice in America. Through clinical integration, pharmacies in CPESN networks can engage with each other to improve the quality of care provided to patients and the value offered to medical-side payers (bypassing PBMs) through enhanced services and lower costs.
