

Recommended Immunizations & Services

Patient Name:

Travel Destination:

Based on review of your medical and immunization history, we recommend the following immunizations and disease preventative medication:

[List Medications, Rational, and Comments if applicable]

- Recommendation 1
- Recommendation 2
- Recommendation 3

Please prepare for your visit to take around 30-45 minutes. All consultations are free. Consultation time allows us to observe you for side effects after giving you the vaccines. During your consultation, we will also discuss measures to take to prevent other diseases and illnesses, such food and water treatment.

Contacting your physician: We will contact your doctor for prescription for the above medications/immunizations.

Thank you so much for choosing our Travel Clinic!

Sincerely,

Travel Health Pharmacist
