

**HELP STOP PRESCRIPTION
DRUG ABUSE!**

Prescription drug abuse and misuse causes more than 12,000 deaths a year in the U.S.

Many, but not all, of these deaths occur among teenagers.

Pain and anxiety medications are the most commonly abused drugs and can be very addicting.

YOU CAN HELP:

- Keep your prescription drugs to yourself.
- Lock up your medication when guests are around.
- Properly dispose of medications you are no longer using. Ask your pharmacist how.
- Talk to your children, grandchildren, friends, and neighbors if you are having problems with prescription drugs or suspect problems in those you know.

Brought to you by this pharmacy and the National Community Pharmacists Association
