If someone shows any of these symptoms, even if they go away, call 911 immediately.

**FACE DROOPING**
Does one side of the face droop or feel numb? Is the smile uneven?

**ARM WEAKNESS**
Is one arm weak or numb? When lifting arms, does one drift downward?

**SPEECH DIFFICULTY**
Is speech slurred/hard to understand? Can a simple sentence be repeated?

**TIME TO CALL 911**
Call 911 right away. Note the time symptoms first started.
