– ***Witnessed and assured destruction by a fully licensed and regulated facility***

- Permit meets state and federal regulations

Sharps Compliance is currently undergoing tests that will allow the residual ash resulting from incineration to be diverted to Sharps® patent-pending Waste Conversion Process (WCP). In the near future, WCP will repurpose the processed unused medications into a safe raw material used in the manufacturer of industrial applications.

For more information on this first of its kind process, visit **nolandfillsrequired.com**.
